## Children assessment

- 1. ABC data collection (ABC)
- 2. An ABC data form is an assessment tool used to gather information that should evolve into a positive behavior support plan. ABC refers to: Antecedent- the events, action, or circumstances that occur before a behavior; Behavior- The behavior and Consequences- The action or response that follows the behavior.
  It is based on direct observation and recording situational factors surrounding a problem behavior.

4/12/17	Support teacher and Italian teacher	Break in the classroom	The child rolls and crawls on the floor with raised knit	"Get up! Stop it that's enough!Now we're going to work!"	Ploy for attention
5/12/17	Math's teacher	Colouring a page	Deliberate leakege of the snot, hypersalivation/drooling it races around in the class	"Clean the nose!" and handing him the napkin.	Ploy for attention; difficulty playing with peers
6/12/17	Support teacher and math's teachers	Filling in a form	He throws himself on the ground beneath the benches to collect fallen objects	"Return items"	Request too high for the child at that time
12/12/17	CED	Writing Christamas card	Spit and destroy the card	"Let's rewrite the card!"	Difficulty in communicating that the ticket does not like
