

## DESCRIPTION

### INDIVIDUAL COMMUNICATION BOOK

The tool is aimed at children with emotional and behavioral difficulties, autism spectrum disorders, speech disorders, motion and condition disorders and other special needs.

It is applicable in the educational institution, at home, in the office of special pedagogue, in the speech therapist's office.

**The aim** is to help children to develop, to communicate with educators, parents, peers and to express their wishes and needs.

The pictures are for communication, description of emotions and desires, choice of activity.

When using pictures, the child is taught to express his wishes and needs. Pictures that are needed for tasks are put into a binder according to the type of activity, for example: "Educational activity" - the pictures of the activities are put together, and the child shows by hand what he would like to act, eat, play, sleep and so on.

If the child feels bad, he indicates the picture with emotion and shows what hurts him.
